

Weight Loss and Workout Program - Upper Body Focus

Your Goal: To reach 70 kg and lose weight in a healthy way.

Daily Calorie Intake: 1,800-2,000 kcal

This calorie range is aimed at losing fat while maintaining muscle mass.

Protein Intake: 168 grams of protein per day (2 grams per kg of body weight).

Balance your carbohydrate and fat intake accordingly.

Workout Days: 3 days a week (Push, Core, Posture and Fitness).

Weekly Workout Schedule

Workout Days:

- Monday: Upper Body Workout (Push, Shoulders & Arms Focus)
- Wednesday: Core and Posture Correction
- Friday: Posture, Fitness and Cardio
- Other Days: Rest or Active Rest (walking, light movement)
